曲げ組子｜Curved Kumiko

曲げ組子とは、一方向に組んでいく「片組手工法」を用い、組手を曲線状に編むことで、美しい曲面を表現した組子細工です。
その曲面によって生まれる陰影が、作品に深みと豊かな表情をもたらします。

Curved Kumiko utilizes the Katakude-technique, assembling the joints in a single direction to form elegant curved surfaces.
These curves create subtle shadows that bring depth and a rich sense of expression to the work.

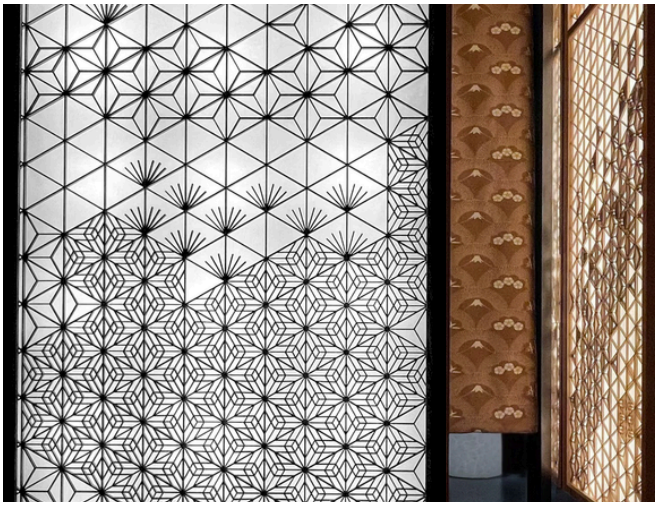

彫刻入り｜Carved Finish

イメージをご提供いただいた上で、文字やロゴなどの彫刻入り加工に対応可能です。
立体的な彫刻表現が、素材の魅力を引き立て、空間やブランドの印象をさりげなく際立たせます。

Custom carving of text, logos, and other elements is available based on the images provided.
The three-dimensional carved expression enhances the natural beauty of the material, subtly elevating the impression of the space and the brand.
